LAMIA KAJAL

Full Stack Developer & Software Engineer

Location: Dhaka, Bangladesh • **Email:** lamiakajal@gmail.com • **Portfolio:** lamiakajal.com • **GitHub:** github.com/lamiakajal • **LinkedIn:** linkedin.com/in/lamiakajal

EXECUTIVE SUMMARY

Results-driven Full Stack Web Developer specializing in Next.js (App Router), React, TypeScript, Node.js, and MongoDB. Demonstrated expertise in engineering high-performance, responsive web architectures with robust zero-FOUC state synchronization, scalable modern authentication (Better Auth), and intuitive user interfaces. Passionate about AI-assisted software engineering workflows, clean modular codebases, and delivering accessible, enterprise-grade digital experiences.

TECHNICAL SKILLS

Frontend & Languages:	JavaScript (ES6+), TypeScript, React, Next.js (App Router), HTML5, CSS3, Tailwind CSS
Backend & Database:	Node.js, Express.js, MongoDB, Mongoose, RESTful API Design, Server Actions
Architecture & Auth:	Better Auth, Session & Cookie Security, Component Lifecycle, SSR / SSG / ISR, State Management
Tools & Infrastructure:	Git & GitHub, Vercel, Netlify, DNS & Domain Infrastructure (SPF/DKIM), AI-Driven Engineering

FEATURED ENGINEERING PROJECTS

Bazar Dor — Daily Grocery & Commodity Price Tracker

Full Stack Web App

Tech Stack: Next.js (App Router), TypeScript, Tailwind CSS, Node.js, MongoDB, Mongoose

- Architected a real-time price monitoring system with dynamic multi-criteria search, category filtering, and trend visualizations.
- Constructed MongoDB aggregation pipelines for rapid historical price computation, cutting server response latency by 35%.
- Engineered hybrid Server and Client components in Next.js to maximize initial paint efficiency and provide snappy user navigation.

FitLog — Interactive Habit & Workout Tracker

Full Stack Web App

Tech Stack: React, Next.js, TypeScript, Tailwind CSS, Express.js, MongoDB, Better Auth

- Developed an intuitive health tracking platform featuring customizable workout logging, habit streaks, and visual metric graphs.
- Implemented secure session management and role-based route guards utilizing Better Auth with resilient token rotation.
- Designed highly responsive, accessible UI layouts with dark/light theme persistence and instant offline optimistic updates.

AXIT & Lucid Pages — High-Conversion Responsive Landing Platforms

Frontend Architecture

Tech Stack: React, Next.js, Tailwind CSS, TypeScript, CSS Animations

- Engineered pixel-perfect, accessible marketing landing experiences with smooth scroll dynamics and fluid micro-interactions.
- Achieved 98+ Google Lighthouse scores across performance, SEO, and best practices by implementing zero-FOUC theme state and modern image optimization.

EDUCATION & PROFESSIONAL CERTIFICATIONS

AI-Driven Full Stack Web Engineering
Professional Certification — Programming Hero

Bachelor of Business Administration (BBA Hons)
Govt. Shaheed Suhrawardy College (Undergraduate)

Higher Secondary Certificate (HSC)
Rokeya Ahsan College — Science / General

Secondary School Certificate (SSC)
Bamoil Ideal High School and College
